## Arkema

Arkema offers Forane 427A refrigerant, the Easy Retrofit, when it comes to retrofitting R-22 air conditioning and refrigeration applications. Forane 427A refrigerant is the closest match to R-22 for performance, mass flow rates, and operating pressures over the whole range of temperatures. For information, visit [www.forane.com](http://www.forane.com) or contact (800) 738-7695. **Circle 115 on the reader service card.**

## Chillventa 2018

The sixth annual Chillventa, the international meeting place for the world of refrigeration, air conditioning, ventilation and heat pumps, will be held Oct. 16–18, 2018, in Nuremberg, Germany. On Oct. 15, the high-caliber Chillventa Congress technical program will focus on energy efficiency, eco design, refrigerants, data centers and legionella bacteria. **Circle 116 on the reader service card.**

## Danfoss

Danfoss TR6 thermostatic expansion valves are optimized for residential and light commercial air conditioning systems and feature a balanced port design, a built-in check valve for heat pump applications, and a stainless-steel capillary tube and anti-hunt sensing bulb. Contractor friendly TR6 valve kit includes Aeroquip, Chatleff, and 3/8 in flare fittings. **Circle 117 on the reader service card.**

## Embraco

Did you know? Embraco manufactures a versatile line of condensing units. Units are engineered for energy efficiency and reliability, and are offered with a selection of standard features and refrigerants. Customizable units are available to meet your refrigeration application needs. For more information, visit [www.embraco.com](http://www.embraco.com) or call (800) 548-9498. **Circle 118 on the reader service card.**

## ebm-papst

The new standard in EC unit cooler fans. The S1G305 is specifically designed for harsh environments. The speed selectable EC fan was created for repair or retrofit of walk-in evaporators. Each unit has a wide voltage range with a rotary switch to set the required RPM. The fans are designed to be plug and play for easy field replacement and were created with the most reliable and efficient EC technology. **Circle 119 on the reader service card.**

## Fieldpiece Instruments

The new MR45 Recovery Machine features a smart, variable speed, one-horsepower DC motor that minimizes liquid slugging and maximizes vapor recovery. The digital display is precise and easy to see, and the electronics are well-protected for use in the rain, cold and heat. **Circle 120 on the reader service card.**

## RSES Journal

Get your content on the go with *RSES Journal's* digital edition on our homepage. RSES Members and magazine subscribers can access our monthly content anywhere, any time. The flip-book version provides easy access to every page. If your subscription is expiring soon and you're not a Member, we invite you to join RSES for a reduced \$108 membership, which includes *RSES Journal* and discounts on all training materials. **Circle 121 on the reader service card.**

## Sanhua International

Sanhua is the world's leading supplier of four-way reversing valves with capacities from 1-119 tons (R410A, Condition 2). Since acquiring the Ranco reversing valves in 2007, Sanhua supplies 50+ million annually. Major heat pump manufacturers rely on Sanhua four-way reversing valves and you should too. **Circle 122 on the reader service card.**

## UEi Test Instruments

UEi introduces the HUB6 wireless refrigeration probe kit, which includes 2 wireless hygrometers, 2 wireless pressure probes and 2 temperature pipe clamps. These probes send readings to the free app UEi HUB that shows a system's liquid and suction measurements, and temperature split and psychrometric calculations in an intuitive easy-to-read display. **Circle 123 on the reader service card.**

## Water Saber Tool Co.

Water Saber Pro from Water Saber Tool Co. is a tool that attaches to garden hoses to properly clean condenser coils without having to take most units apart to backwash the coil. It is designed to slip through the fan guard (or other openings). Manufactured with durable 304 stainless steel, it has a powerful 90-degree spray that usually does not require the use of chemicals to thoroughly clean the coil. **Circle 124 on the reader service card.**

# ESSENTIAL ELEMENTS...

MORE CONTENT, PRODUCTS AND SERVICES FOR THE HVACR INDUSTRY

*RSES Journal* is more than just a magazine! Did you know you can receive *RSES Journal's* supplemental eNewsletters for free? *Elements* provides subscribers with monthly technical stories, case studies, white papers and products/services not featured in the printed magazine; and *Essentials* showcases some of the latest industry products and services to hit the market each quarter.

## Want to sign up?

Simply visit [www.rses.org/requestinfo.aspx](http://www.rses.org/requestinfo.aspx), fill out the form, and select the "Elements Jan 2010" and "RSES Journal Essentials 2011" check boxes. Be sure to click the "Sign Up" button at the bottom of the page when you are finished!
