## ASPEN Refrigerants

ASPEN Refrigerants has R-22, now and forever—ready to ship FREE to nearly anywhere in the U.S. the next day. Choose us for all your refrigerant

needs. We are an EPA-certified refrigerant reclaimer, buying recovered refrigerants at the best market price. Get a free quote today. [www.aspenrefrigerants.com](http://www.aspenrefrigerants.com). 800-473-3766. Any Refrigerant, Any Place, Any Time. **Circle 115 on the reader service card.**

## Danfoss

Danfoss TR6 thermostatic expansion valves are optimized for residential and light commercial air conditioning systems and feature a balanced port design, built-in check valve for heat pump applications, and a stainless-steel capillary tube and anti-hunt sensing bulb. Contractor friendly TR6 valve kit includes Aeroquip, Chatleff, and 3/8 in. flare fittings.

## ebm-papst, Inc

The RadiPac EC motor options are now available up to 18 hp. Each motor includes intelligent and aerodynamic impeller design with high-performance electronics. Suitable for horizontal and vertical installations with impeller diameters up to 1250 mm (~50 in.). Performance. **Circle 117 on the reader service card.**

## Embraco

Did you know? Embraco manufactures a versatile line of condensing units. Units are engineered for energy efficiency and reliability, and are offered with a selection of standard features and refrigerants. Customizable units are available to meet your refrigeration application needs. For more information, visit [www.embraco.com](http://www.embraco.com) or call (800) 548-9498. **Circle 118 on the reader service card.**

## Fieldpiece Instruments

The new MR45 Recovery Machine features a smart, variable speed one-horsepower DC motor that minimizes liquid slugging and maximizes vapor recovery. The digital display is precise and easy to see, and the electronics are well protected for use in the rain, cold, and heat. Lightweight at only 22 lb, MR45 is also rugged with rubberized housing and rail slides for extra protection. [www.fieldpiece.com](http://www.fieldpiece.com). **Circle 119 on the reader service card.**

## Job Valves

Job Valves float valves for your HVAC needs, including feature-packed valves for chillers and cooling towers. Built-in anti-hammering feature. ETL certified to NSF372 standards. UL94 version available. Sizes from 3/4 in.-2 in. Specializing in manufacturing premium float valves since 1967. See full line at [jobvalves.com](http://jobvalves.com) or call 800-680-3167. **Circle 120 on the reader service card.**

## RSES Journal

Get your content on the go with *RSES Journal's* digital edition on our homepage. RSES Members and magazine subscribers can access our monthly content anywhere, any time. The flip-book version provides easy access to every page. If your subscription is expiring soon and you're not a Member, we invite you to join RSES for a reduced \$108 membership, which includes *RSES Journal* and discounts on all training materials. **Circle 121 on the reader service card.**

## Panasonic

Panasonic's ECOi VRF systems give contractors, engineers and architects a modular HVAC solution that can grow with any building. Using the most efficient combination of compressor, fan and refrigeration management, ECOi VRF lowers operating costs while offering the design flexibility you demand. For more information, please visit [us.panasonic.com/hvac](http://us.panasonic.com/hvac). **Circle 122 on the reader service card.**

## Sanhua International

Sanhua ball valves easily and efficiently shut off refrigerant flow and allow for the refrigerant to be isolated when servicing. The ball valves are 100% factory leak tested, are compatible with all common HCFC and HFC refrigerants, and are UL listed with a maximum operating pressure of 652 psig. **Circle 123 on the reader service card.**

## UEi Test Instruments

UEi introduces the HUB6 wireless refrigeration probe kit, which includes 2 wireless hygrometers, 2 wireless pressure probes and 2 temperature pipe clamps. These probes send readings to the free app UEi HUB that shows a system's liquid and suction measurements, and temperature split and psychrometric calculations in an intuitive easy-to-read display. **Circle 124 on the reader service card.**

# RSES eLearning— Training at Your Fingertips

RSES eLearning is online training developed by leading HVACR experts. Courses are straightforward and include learning objectives, interactive exercises, audio and animations, as well as end-of-module assessments with printable certificates upon successful completion.

### Courses Currently Available:

- Manufacturer/Technical Webinars
- Hydrocarbon Refrigerants Safety Training
- CEH Corner
- Air Conditioning Fundamentals
- Electricity for HVACR Technicians
- Safety for the HVACR Technician
- Refrigerant Usage Certification (EPA Section 608 Preparation)
- Preparing for the NATE Exam Online Training Programs

The majority of courses are North American Technician Excellence (NATE) recognized, providing technicians with the opportunity to earn continuing education hours in addition to continuing education units.

Also, RSES Members receive a discount on ALL training materials. Not a member? Now is the perfect time to join RSES and your HVACR peers with special anniversary pricing through 2018. Visit [www.rses.org/Guideto85.aspx](http://www.rses.org/Guideto85.aspx) for details.
