Airgas Refrigerants

Visit the new website for Airgas Refrigerants, an Air Liquide company, to buy refrigerants, sell your used refrigerants, arrange expert on-site services or try the AHRI-Accredited Refrigerant Testing Laboratory. Find low-GWP refrigerants, replacement HFOs, PT Charts, and R-22 Replacements. Any Refrigerant, Any Place, Any Time. www.airgasrefrigerants.com. 1-800-473-3766 or ARF-Contact.Us@Airgas.com. **Circle 115 on the reader service card.**

Arkema Inc.

Arkema Inc. offers Forane® 427A refrigerant, the Easy Retrofit™, when it comes to retrofitting R-22 air conditioning and refrigeration applications. Forane® 427A refrigerant is the closest match to R-22 for performance, mass flow rates, and operating pressures over the whole range of temperatures. For information, visit www.forane-us.com or contact (800) 738-7695. **Circle 116 on the reader service card.**

Danfoss

Optyma™ Slim condensing units are built with quality Danfoss components. They utilize proven Danfoss compressor technology and a fan speed controller to extend system lifespan. The microchannel coil provides consistent high performance and resists galvanic corrosion. To simplify installation, all Optyma condensing units come fully equipped, and feature standard footprints and connection points for drop-in replacement. Learn more about Danfoss Optyma condensing units at choose.danfoss.com. **Circle 117 on the reader service card.**

DiversiTech

For refrigeration conversion! Super Change #981 is a fast and easy system retrofit. The retrofit eliminates oil change out, replaces R22 line set conversion flush and creates a strong compatibility link between all oils to any HFC refrigerants. See Cliplight Super Change video at www.diversitech.com. **Circle 118 on the reader service card.**

Fieldpiece Instruments Inc.

Fieldpiece Instruments Inc. enters the tool bag market to meet customer demand for quality HVACR tool bags. The new BG44 Service Tool Bag from Fieldpiece was designed specifically for HVACR professionals to have in hand everything they need on an initial service call. The patent pending tool organizer is elevated for hand tools so HVACR pros can easily see where everything is and conveniently grab what they need. **Circle 119 on the reader service card.**

Mastercool Inc.

ACHIEVE SUBCOOL OR SUPERHEAT READINGS IN 3 EASY STEPS... The Compact Subcool/Superheat Calculator is pre-programmed with 37 refrigerants and calculates critical data in 3 easy steps utilizing any gauge, 1) Choose refrigerant 2) Enter pressure 3) Clamp thermocouple on proper tube. Easily select superheat or sub cool with a touch of a button. The unit will also display bubble and dew temperature for a corresponding pressure and you can easily look up saturated temperatures. The unit is also upgradable as additional refrigerants become available. **Circle 120 on the reader service card.**

RSES Journal

Get your content on the go with *RSES Journal's* digital edition! RSES Members and magazine subscribers can access our monthly content anywhere, any time. The flip-book version provides readers with live links, easy access to every page via table-of-contents shortcuts, easy-to-read text versions of every page and much more. Access to the digital edition is available from our homepage. **Circle 121 on the reader service card.**

Sporlan/Parker Hannifin

Meet ZoomLock Flame-free Refrigerant Fittings. 10 Seconds. Connected. ZoomLock™ flame-free refrigerant fittings are the faster, easier and safer way to join copper HVACR tubing up to 700 psi pressures. ZoomLock fittings work with exclusive crimping technology, so there's no brazing needed. One technician can quickly do the connecting job alone without a torch, permits or fire safety equipment. **Circle 122 on the reader service card.**

Sanhua International

Sanhua International offers a full line of liquid line filter-driers, providing proven performance to remove moisture, contaminants, dirt or acid. Sanhua filter-driers are applicable for all common refrigerants, including R-134a, R-404A, R-410A, R-507 and R-290. All Sanhua filter-driers are UL Listed and are now available in distributor/contractor-friendly packaging. **Circle 123 on the reader service card.**

Water Saber Tool Co.

Water Saber Pro from Water Saber Tool Co. is a tool that attaches to garden hoses to properly clean condenser coils without having to take most units apart to backwash the coil. It is designed to slip through the fan guard (or other openings). Manufactured with durable 304 stainless steel, it has a powerful 90-degree spray that usually does not require the use of chemicals to thoroughly clean the coil. **Circle 124 on the reader service card.**

ESSENTIAL ELEMENTS...

more content, products and services for the HVACR industry

RSES Journal is more than just a magazine! Did you know you can receive *RSES Journal's* supplemental eNewsletters for free? *Elements* provides subscribers with monthly technical stories, case studies, white papers and products/services not featured in the printed magazine; and *Essentials* showcases some of the latest industry products and services to hit the market each quarter.

Want to sign up?

Simply visit www.rses.org/requestinfo.aspx, fill out the form, and select the "Elements Jan 2010" and "RSES Journal Essentials 2011" check boxes. Be sure to click the "Sign Up" button at the bottom of the page when you are finished!
