Air Solution Co.

Air Solution Co.'s Cottonwood Filter Screens are environmentally friendly and engineered specifically for use in high-volume/high-velocity air-movement systems including cooling towers, air-handling units, condensers and air-cooled chillers, dry coolers and wall louvers. The filters feature a non-stick vinyl surface for easy cleaning, quick-release fasteners and a filter life of up to 15 years. **Circle 116 on the reader service card.**

FanHandler

The many features of FanHandler's eCModulator are described in e-mail literature. It is now possible to convert PSC equipment to true modulated variable-speed comfort and electronically commutated motor efficiency. One control covers heat pumps, hybrid systems, furnaces and zone duct pressure control. The control allows constant fan in even the most hot and humid climates. **Circle 120 on the reader service card.**

A.O. Smith Electrical Products Co.

The Comfort Select~FC motor, CS89, is a brushless dc high-efficiency motor that runs off 120-V single-phase input. The motor is a direct replacement product for shaded-pole and PSC motors used in fan-coil and PTAC applications, and provides an annual savings of up to \$180.89—a 69% savings in kilowatt hours. **Circle 117 on the reader service card.**

Fieldpiece

Download Fieldpiece's onsite brochure to help explain how easy it is to save customers money on their air-conditioning electricity bills with a minimum investment. The brochure also features a frequently-asked-questions page. **Circle 121 on the reader service card.**

ClimateMaster

Geo Farm is a ClimateMaster-hosted event that takes place Aug. 30, 2011, on a 300-acre farm in the rolling hills where Indiana, Ohio and Kentucky meet. The one-day event will cover everything geothermal, from trenching, drilling, load-sizing and geothermal equipment. **Circle 118 on the reader service card.**

Jackson Systems

Jackson Systems' condensed catalog includes up-to-date information on its entire product line, including the Wireless Comfort Family—the company's latest innovation. The catalog is complete with product features, individual specification sheets and wiring diagrams. The interactive catalog is available online or a print catalog is available by request. **Circle 122 on the reader service card.**

Controlled Release Technologies

Controlled Release Technologies is a leading manufacturer of HVAC maintenance products that help reduce, delay and even avoid expenses. Its complete maintenance approach covers the entire HVAC system, including pans, basins and metal surfaces; evaporator and condenser coils; and ductwork, walls and insulation. **Circle 119 on the reader service card.**

NATE

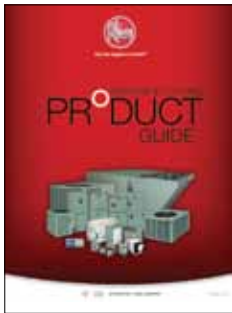

The NATE Online Store offers a wide variety of merchandise to help HVACR professionals enhance their image. Available products include NATE-certified uniform patches, chevrons, quality shirts and hats, decals for company cars, NATE banners, and customizable leave-behind appliance stickers. **Circle 123 on the reader service card.**

Quietside

The Samsung AQR Vivace high-wall mini splits are available in three models with 12,000 Btuh–24,000 Btuh capacities. The units are designed to be aesthetically pleasing by using a shadow-mirror front panel. An SPI hydrogen and oxygen ion generator is built into the unit to remove

viruses and harmful particles from the room and to improve IAQ. **Circle 124 on the reader service card.**

Rheem

Rheem Manufacturing Co. has introduced the newly redesigned Rheem Heating & Cooling Product Guide featuring a new look. The piece makes it easy to find the right Rheem home-comfort solution for every customer. **Circle 125 on the reader service card.**

Testo

The new testo 570 is a robust, digital refrigeration system analyzer, with a four-way valve block, that is ideal for installing and troubleshooting all types of refrigeration, heat pumps and air-conditioning systems. It can be used daily for calculating superheat and subcooling simultaneously in real-time with two external temperature probes. **Circle 128 on the reader service card.**

TSI

Learn how TSI-Alnor can provide ventilation solutions. The HVAC Assessment Handbook is a practical guide to performance measurements in mechanical heating, ventilating and air-conditioning systems. **Circle 129 on the reader service card.**

Ritchie Engineering/ Yellow Jacket

Yellow Jacket University is a website focused on delivering more product training and information to HVACR professionals.

The website features how-to and training videos, articles, and common questions and answers; and an ideas center where visitors can share everything from new product ideas and enhancements to website and customer-service experiences. **Circle 126 on the reader service card.**

Test Products International

Test Products International Inc. designs and manufactures high-quality, handheld test/measurement equipment for professionals/technicians worldwide. A wide-ranging product offering, including gas detection, combustion, IAQ

and other standard HVACR instruments is what makes TPI unique. The products also feature an industry leading no-hassle warranty. **Circle 127 on the reader service card.**

WE'RE TELLING CONSUMERS TO LOOK FOR NATE CERTIFICATION.

MAKE SURE YOU'RE THE ONE THEY CALL.
