Airgas Refrigerants

Visit the new website for Airgas Refrigerants, an Air Liquide company, to buy refrigerants, sell your used refrigerants, arrange expert on-site services or try the AHRI-Accredited Refrigerant Testing Laboratory. Find low-GWP refrigerants, replacement HFOs, PT Charts, and R-22 Replacements. Any Refrigerant, Any Place, Any Time. www.airgasrefrigerants.com. **Circle 115 on the reader service card.**

DiversiTech

The Flex Inject #985 from DiversiTech stops AC/R Leaks FAST! The Flex Inject has 3x the sealing power of competitors, is compatible with all oils and refrigerants, is polymer-free and doesn't require tools to operate. Simplify your work. Made in America. For more information, visit www.supersealac.com and www.diversitech.com. **Circle 116 on the reader service card.**

Embraco

The Plug N' Cool is a complete cooling solution available for reach-in refrigerators in supermarkets, convenience stores and professional kitchens. Its modular concept simplifies the installation process and offers flexibility for store layout. This solution also does not require a machine room, providing more space for food retailers. **Circle 117 on the reader service card.**

Fieldpiece Instruments

Fieldpiece Instruments introduces a new line of wireless probes that are compatible with the Job Link™ Mobile System for versatile, easy testing. The new probes include pressures, pipe clamps, and psychrometers. The probes have a powerful wireless range of 800' with a signal strong enough to penetrate through walk-ins. In addition, they have a long battery life, up to 150 hours with two AAA batteries. The probes work directly with Job Link Free for live measurements, diagnostics, reports and more. Look for kits in stores soon. **Circle 118 on the reader service card.**

Rectorseal

PRO-Fit™ bits provide faster, more accurate flares than traditional flaring tools. A better quality of flare is created because they burnish the copper/aluminum, eliminating imperfections in the flare and reducing risks of leaks. Contains 1/4 in., 3/8 in., 1/2 in., 5/8 in. and 3/4 in. hex bits, in a durable, transparent case, color-coded for quick identification. **Circle 119 on the reader service card.**

RSES Journal

Get your content on the go with RSES Journal's digital edition! RSES Members and magazine subscribers can access our monthly content anywhere, any time. The flip-book version provides readers with live links, easy access to every page via table-of-contents shortcuts, easy-to-read text versions of every page and much more. Access to the digital edition is available from our homepage. **Circle 120 on the reader service card.**

Mastercool Inc.

Mastercool Inc. is charging into the future with its cutting edge hands free and wireless scale! This unit provides precise refrigerant charging through its programmable remote keypad and has a built in solenoid to eliminate unwanted tangle in hoses. The technician doesn't have to be on standby near the tank at the end of charge! The solenoid stops the flow of refrigerant, assuring the precise programmed amount while the user continues to work on the job-site. An alarm will sound allowing ample time to turn off refrigerant supply. **Circle 121 on the reader service card.**

Sanhua International

Sanhua International offers a full line of liquid line filter-driers, providing proven performance to remove moisture, contaminants, dirt or acid. Sanhua filter-driers are applicable for all common refrigerants, including R-134a, R-404A, R-410A, R-507 and R-290. All Sanhua filter-driers are UL Listed and are now available in distributor/contractor-friendly packaging. **Circle 122 on the reader service card.**
