

Tech Solutions

→ ESCO + RSES HVACR Learning Network

The HVACR Learning Network is the result of a partnership between the ESCO Institute and RSES that provides training material from both

organizations to create a cradle-to-grave educational pathway for the HVACR industry.

Users can access a variety of classes and materials such as HVACR training videos, hydrocarbon training courses, Honeywell refrigerant training and RSES courses both new and old. The complete CEH Corner and webinar archive is available on there as well with new columns updated monthly. If videos are more your style check out the informative Workbench Series with short videos that walk the user through issues that the HVACR technician might encounter in the field.

→ Small But Mighty Vacuum Pump from Fieldpiece!

With a small footprint, the VP67 can go just about anywhere, along with its ½ HP AC motor that has all the power you need to quickly pull a deep vacuum. Plus, it comes with four in-line

ports to make hose routing easy—even for three different size hoses.

This new lightweight, portable and powerful pump performs evacuations faster, freeing you up to visit more customers. And since it's a Fieldpiece vacuum pump, it uses our revolutionary RunQuick Oil Change System, letting you change the pump's oil in 20 seconds without making a mess and without turning off the pump. Learn more at www.fieldpiece.com.

→ Swift's Wireless Sensor Platform

Swift Sensors was born on the belief that by making it easy to deploy sensors and analyze sensor data, refrigeration companies and the customers they serve will use them in new ways and gain valuable insights into their operations with actionable data. Swift Sensors developed a new approach to building a usable, forward-thinking sensor platform with an integrated, software-centric solution. Our wireless sensor platform combines small plug-and-play sensors with +5-year battery life, wireless connectivity, and secure cloud-hosted software, all tightly integrated for simple deployment. Get started today and start monitoring your critical assets. www.swiftsensors.com.

→ Innovative Sanhua SEC Superheat Control Kit

The innovative Sanhua SEC Superheat Control Kit for LPF electric expansion valves is destined to revolutionize how technicians approach retrofits of TXV-based system failures or new system

builds. It includes a superheat controller, pressure sensor, temperature sensor and valve stator. Coupled with the correct size Sanhua LPF EEV, it requires less truck stock, fewer tools and allows faster installation than older TXV setups. One kit and a few valves on your truck can replace any TXV up to 3.1-ton R-404A. All refrigerants, all temperature ranges, any superheat setting. And customers enjoy significant energy savings! For more info: www.sanhuausa.com/us/en/products/aftermarket-service-products. **Circle 118 on the reader service card.**

→ Rediscover the Great Indoors with TSI's AirAssure IAQ Monitor

When we're together in the same place, amazing things happen: collaboration, creativity, innovation. With the AirAssure Indoor Air Quality (IAQ) Monitor from TSI Incorporated—a global leader in performance measurement solutions—

you won't have to wonder about the state of the air quality of your indoor spaces. This user-friendly IAQ monitor is ideal for government agencies and environmental organizations, health-care, hospitals, assisted living campuses, and medical office buildings, industrial manufacturing, factories, power generation and petrochemical plants, hotels, conference centers, shopping malls, and athletic/entertainment arenas, as well as researchers and community groups looking to collect IAQ data.

The AirAssure IAQ Monitor equips you to track levels of particulate matter (PM), traditional IAQ parameters, and up to six gases. You can also view, analyze and share actionable data all within the cloud-based TSI Link Solutions. To learn more, visit tsi.com/AirAssure. **Circle 119 on the reader service card.**

RSES Journal

Wherever You Go

Did you know you can access RSES Journal on your mobile device? Get the HVACR Training Authority's flagship publication wherever you are, today! Not a Member of RSES? Not a problem! For a limited time, RSES is offering a **FREE YEAR** of its **DIGITAL EDITION** to all industry affiliates.

Don't miss out on this opportunity to receive the HVACR contractor, technician and facility manager's go-to-source for on-the-job knowledge.
