## Fieldpiece Instruments

Fieldpiece Instruments introduces a new line of wireless probes that are compatible with the Job Link™ Mobile System for versatile, easy testing. The new probes include pressures, pipe clamps, and psychrometers. The probes have a powerful wireless range of 800 ft with a signal strong enough to penetrate walk-ins. In addition, they have a long battery life, up to 150 hours with two AAA batteries. The probes work directly with Job Link Free for live measurements, diagnostics, reports and more. Look for kits in stores soon. **Circle 115 on the reader service card.**

## Regal Beloit

With its axial design, UlteMAX™ motor offers an overall footprint reduction of at least 50% while MAXimizing output over a wide range of speed for air handling and ventilation applications. Its variable speed, on-site serviceability and three motor families (3-15 HP) provide significant implications toward reducing costs and improving performance. **Circle 119 on the reader service card.**

## Mitsubishi Electric

Mitsubishi Electric Cooling & Heating Hyper-Heating (H2i®) VRF systems deliver efficiency, performance and comfort.

H2i R2-Series heat recovery systems deliver 100% heating capacity down to 0°F outdoor ambient and 85% down to -13°F. With a comprehensive product lineup, H2i systems can meet all your needs. Learn more at MitsubishiPro.com. **Circle 116 on the reader service card.**

## RSES Journal

Get your content on the go with *RSES Journal's* digital edition! RSES Members and magazine subscribers can access our monthly content anywhere, any time. The flip-book version provides readers with live links, easy access to every page via table-of-contents shortcuts, easy-to-read text versions of every page and much more. Access to the digital edition is available from our homepage. **Circle 120 on the reader service card.**

## Nortek Global HVAC

Reznor packaged rooftop units are highly configurable at the factory to deliver the exact spec unit to the jobsite. With over 35 options per tonnage size, there are over 750,000 unit configurations available—all meeting 2018 efficiency standards. It's the solution-driven answer to respect the spec. **Circle 117 on the reader service card.**

## Sanhua International

Sanhua International is the world's leading supplier of four-way reversing valves for multiple applications and cooling capacities from one to 119 tons (R-410A, Condition 2). Sanhua's newly expanded offering includes contractor-friendly packaging for wholesale distribution. Major heat pump manufacturers rely on Sanhua four-way reversing valves and you should too. **Circle 121 on the reader service card.**

## NATE

NATE is excited to commemorate 20 years of technician excellence. From our founding in 1997 to present day, our goal has been to certify the professional competence of HVACR technicians and instill confidence in them, their employers and the consumers they serve. For more information, visit [www.natex.org](http://www.natex.org). **Circle 118 on the reader service card.**

## Test Products International

TTPI 717P combustion analyzer, \$649.95 AND get a FREE 725L combustible gas detector for a limited time (\$69.95 value). Field replaceable smart O<sub>2</sub> & CO sensors. Measure O<sub>2</sub>, CO and flue temperature; calculate efficiency, excess air, CO<sub>2</sub> and CO air free. Differential manometer: 0.001 in. water resolution required for high efficiency gas and oil appliances. T1, T2 and temperature differential built in. Three-year limited warranty. 800-368-5719; [www.testproductsintl.com](http://www.testproductsintl.com). **Circle 122 on the reader service card.**

## Testo

The testo 320 combustion analyzer with IR printer for residential and commercial combustion system analysis features a bright, colorful graphic display with simple menu icons, which are easy to see and interpret. A rugged and reliable combustion analyzer, the testo 320 ensures correct combustion efficiency and CO safety analysis, each and every time. **Circle 123 on the reader service card.**

## TSI

Utilizing everyday smart devices, the next level of performance for ventilation test instruments has arrived. TSI's new AirPro® Solutions platform is comprised of mobile application software, wireless instrumentation, a device manager website portal and flexible service offerings. Optimize your productivity with unmatched accuracy, workflows and seamless data logging. **Circle 124 on the reader service card.**

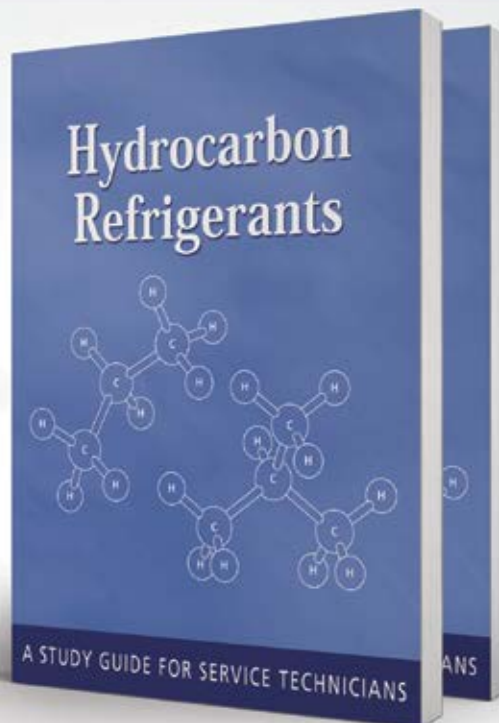

# ARE YOU HYDROCARBON READY?

RSES has offered a **hydrocarbon safety training program** since 2013, after the 2012 US EPA decision to approve their use through their SNAP program for specific refrigeration applications.

Learn the facts about working safely with flammable refrigerants:

- EPA Regulations
- UL Standards
- Refrigerant Safety
- Service Procedures
- Much, much more!

RSES' full eLearning course includes a PDF of our Study Guide, a narrated online presentation highlighting key topics from the study guide, and the certificate test assessing your understanding of the material. Looking to earn CEHs? The course is approved for 8!
